How **Greenville** raise the standards of technology development, logistics, eco-friendly products towards equitable development with **SAP S/4HANA UPGRADE 2021**

Our belief in 'Bringing life to life' is anchored to a passion that has made us preserve, protect and enhance quality of life. For over 5 decades now, we at Bharat Serums and Vaccines Limited (BSV) have used our scientific resources to develop a range of biological, biotech and pharmaceutical products. Today, as we influence patient outcomes in the therapeutic areas of Women's health and Critical Care and IUI-IVF, we have the privilege of being a partner of choice.

Before: Challenges and Opportunities

- Modify the system to add the Ideal plant field and reason for change dropdown can be technically complex and time-consuming.
- Introduce new fields prompts a review of existing processes, creating an opportunity for optimization and efficiency improvements.
- Accurate data and additional approval level minimize errors, leading to improved customer satisfaction.

Why SAP and SAVIC Technologies?

SAVIC has a thoughtfully aligned approach based on Chettinad digital vision and strategic requirements Pillars of our approach:

- Highly experienced & right sized team across SAP and all core modules in scope
- Support Chettinad with End-to-End Change management, Program management, Governance and Consulting skills to ensure the success of this project
- Chettinad specific approach -Vision to Value Delivery Lean Delivery Engagement Model

After Value-Driven Results

- Improved data accuracy, analysis, and decision-making with Ideal plant field and reason for change dropdown.
- Streamlined processes, comprehensive reporting, and increased productivity through integration, leading to enhanced operational efficiency and customer satisfaction.
