

# HappSales SAVIC Apps

HappSales can monitor target achievement, daily sales, daily collections, van stock values, etc. using the Mobile App dashboard. Managers can plan routes using location and map features for a complete control over sales and inventory.

## **Integrated Account Management Platform**

Deliver an intelligent and integrated platform for account management across Sales, Service & Accounts Receivable. That way they could influence outcomes across all three business drivers – revenue, profitability and cash-flow, for positive sustainable impact.

## **Frugal-transformation delivery methodology**

Frugal-transformation delivery methodology that exempts organizations from costly, time-consuming and risky projects (which were typically associated with conventional software implementation projects)

## **Intelligent Mobile App powered by conversational-AI**

Equip front-end teams with an intelligent mobile app that would help them to do their job better, make them more productive, hit their goals sooner, and make them successful and happy.

**OUR  
PRICE**

**HS**

**\$200 / Monthly**
